

# How to replace the tie rod end on VOLKSWAGEN LUPO

### Carry out replacement in the following order:

Tighten the parking brake lever.

Place wedge blocks under the rear wheels.

Loosen the wheel mounting bolts.

Remove the front wheels.

Raise the front of the car and secure on supports.

#### (i) AutoDoc recommends:

When deinstalling, mark or measure the precise position of the ball joint on the track rod, or count the number of turns in order to prevent misalignment afterward.
